

## Work History

## Profile

**Leading Agile Web Development Teams to Success:  
Proven Track Record of 25+ Years in Full Stack Development  
and Project Management**

As a highly experienced and skilled web developer with over 25 years of experience in the field, I have a proven track record of delivering successful projects on time and within budget. My expertise in the full stack of web development, as well as my ability to lead and optimize agile teams, makes me an ideal candidate for your organization.

## Work Experience

### Software Engineering Manager

2022-present Grand Canyon Education

I directly oversee a team of backend developers, ensuring timeliness and quality of work. I act as a Business Analyst on execution and delivery of back-end development projects and deliverables. I work closely with the Front-End Development manager on strategy in implementation of front-end code. I ensure all projects meet required functionality and development timelines, while maintaining a focus on reusable code. I have supervisory responsibilities, hold team meetings, maintain development and documentation standards, drive the agile transformation initiative, recruit talent, and provide annual assessments on team performance.

### Founder / Digital Technology Specialist

2016-present TechnoSorcery.com

I play a key role in helping businesses and organizations stay ahead of the curve in the digital world. I offer expert consultation services and lead projects in the fields of Artificial Intelligence, Machine Learning, and Web3.0, ensuring that clients are always up to date with the latest technologies and trends. I utilize a hands-on approach to provide tailored solutions that improve efficiency and my ability to explain complex technical concepts in an easily understandable manner helps build strong client relationships and drive business growth.

### Senior Director of Product and Engineering

2018-2022 ProcessMaker.com

As Senior Director of Product and Engineering was responsible for building a world class team to develop a next generation workflow product. My primary responsibilities were in product planning and execution throughout the lifecycle of ProcessMaker 4. I worked with stakeholders to constantly groom the backlog, define the market fit and collaborate with engineering, sales, marketing and operations in order to ensure that the business objectives and strategy alignments were met. I personally built prototypes, MVPs and established and oversaw a team of 20, including engineers, QA, design and multiple product owners.

## Testimonials and References

*Alan was my manager for around three years. In that time he proved to be a compassionate and energetic leader as well as a knowledgeable mentor. Alan led the charge in development of an entirely new product. He assembled an outstanding team of engineers with no ego and with a singular focus on product quality. On a personal level, he showed genuine concern for his direct reports and was a champion for his team members – always looking out for the best interests of his people and offering a hand up whenever possible.*

**Ryan Cooley, Engineering Manager, ProcessMaker**

*“Alan is a very talented Web Developer with strong technical skills. He has good business sense and the ability to complete projects on his own without supervision. He went above and beyond what was required of him to complete projects on time at MediaTrust.”*

**Joe Hopkins, Chief Systems Architect, MediaTrust, Inc.**

*“Alan is detail oriented, setting clear goals and objections that help ensure projects are successfully managed. His lively personality is enjoyable to work with.”*

**David R. Smith, VP Marketing - Kaiku Finance**

*“Alan is an innovative thinker and detailed oriented. His project management skills were exceptional and he would be an asset to any team.”*

**Adrienne Gray, Vice President, Kaiku Finance**

*Alan is a passionate leader—as naturally focused on his team’s wellbeing as he is their output. In my time with Alan as my manager, his skill helping both technical and non-technical teams navigate difficult deadlines and demanding circumstances while still uplifting and supporting the team’s goals was phenomenal. He’s not afraid to ask hard questions or push the envelope to get impactful results, but he is also very intentional in his desire to keep everyone on the same team. It’s a tough line to walk, and Alan does it well—I had a great experience working on his team.*

**Walter Nealing, Product Manager, ProcessMaker**

*“Alan is an extremely capable IT person who understands how e-marketing can be used effectively to enhance productivity and improve the bottom line. He also shows great initiative in developing new and creative uses of services his team provides.”*

**Rich Jarc, VP Marketing, JEG Diversified Healthcare**

*“Over the past two years, Alan helped our company rebuild and relaunch a fast well designed and useful website. He is an expert! I would highly recommend him for any web project.”*

**Avi Gallant, Founder and Partner of TheUntz.com**

*“Alan is a high level PHP developer with a wealth of experience and knowledge when it comes to coding PHP sites and applications. He is a great asset or leader to any team.”*

**Javier Hernandez, DevOps Manager, MediaTrust, Inc.**
